

DISASTER PREPAREDNESS

WHAT TO DO TO SAVE YOUR EQUIPMENT WHEN YOU KNOW DISASTER IS COMING

Every day, businesses rely on equipment to support their operations. When equipment is not operating, businesses start losing money – immediately. In addition to a production loss, businesses can also face devastating employee turnover and a decreased customer base.

When you know disaster is headed your way, there are several precautions to take ahead of time to help minimize damage to your technical equipment.

<h1>1</h1>	<p>THREE DAYS BEFORE</p>	<ul style="list-style-type: none"> • Board up any and all windows • Contact Original Equipment Manufacturers • Test your communication systems
<h1>2</h1>	<p>24 HOURS BEFORE</p>	<ul style="list-style-type: none"> • Power down and disconnect all equipment • Cover and protect all equipment • Back up data and control software
<h1>3</h1>	<p>WHO DO YOU CALL?</p>	<ul style="list-style-type: none"> • Suppliers • Insurance Adjuster • Risk Manager • Restoration Specialists
